Defend. Optimize Resilience. In the face of novel microbes, or if the body is weakened, we need to call in the troops. Humans have relied on plants for eons to balance and reinforce immune activity. To rouse the body's vital force. To prime the immune pump for opposition. Together, the body and botanicals bolster defenses to co-create optimal resilience.

Biocidin® TS

Daily Herbal Throat Spray

RESPIRATORY & IMMUNE SUPPORT*

Description

Think there is no way to stimulate rapid immune response naturally? Think again! Research shows there are natural therapies that have a nearly immediate effect on immune activity in the mouth and throat. Where we need it first.

Biocidin® TS Throat Spray contains our proprietary Biocidin® Botanical Blend, made with 99% organic ingredients. It was the subject of a human clinical trial – the gold standard in science.¹ The study evaluated its impact on Secretory Immunoglobulin A (SIgA), an antibody that plays an integral role in rapid immune defense. Participants[†] showed a 66% increase in SIgA within 60 minutes of use. A soothing, protective boost – so unique we patented it.

Biocidin® TS Throat Spray empowers you. Clear clinical support for a healthy immune response – giving your body what it needs to do its best work.*
