Smile. Promote oral health. We've created one-of-a-kind, research-backed oral care products. Serious science transformed into action – clearing unwanted oral microbes, cultivating beneficial flora, and supporting healthy teeth and gums. It's foundational Dentaceutical® care with a systemic reach. Because whole-body health begins in the mouth.

Dentalcidin®

Oral Microbiome Toothpaste

PROFESSIONAL STRENGTH
REMOVES BIOFILM PLAQUE
WHITENS TEETH + FRESHENS BREATH

Description

More than just toothpaste, Dentalcidin® is a breakthrough *Dentaceutical*™ solution. A natural dental formulation that impacts the health of teeth and gums.

Powered by Biocidin® – our legacy broad-spectrum botanical formula – Dentalcidin® toothpaste goes beyond supporting a beautiful smile. In addition to helping whiten teeth and freshen breath, it also impacts whole-body health. How? By removing oral biofilms (plaque) and supporting oral microbiome balance and periodontal health.*

The 18 botanical extracts and essential oils in Biocidin® have also been shown to modulate immune activity, maintain a healthy inflammatory response, and balance microbial ecology without harming probiotic organisms.* And, as it disrupts plaque biofilms, it leaves teeth feeling exceptionally clean.*

This is a revolutionary approach – a natural solution supporting fresh breath, healthy gums, and clean white teeth while preserving oral microbial balance.* Now that's something to smile about.

Benefits

- Whitens teeth and freshens breath*
- Keeps teeth feeling smooth and clean all day*
- Assists in removing oral biofilms (plaque)*
- Supports periodontal and gingival health*
- Supports oral microbiome balance for whole-body health*
- Gentle, effective cleaning – suitable for sensitive teeth
